

*"Benefiting Therapeutic Care for Trauma & Grief Stricken Children"*

*My name is Vicki Bull, I am the founder and President of a non-profit organization called Sunshine's Angels. Sunshine's Angels raises funds to help children who have been faced with a traumatic event in their young life Such as the death of a loved one.. Our mission statement is "Benefiting Therapeutic Care for Trauma & Grief Stricken Children".*

*Sunshine's Angels is named after my daughter "Sunshine". Sunshine's life was cut short in an accident at the age of twenty eight. The mother of three young children ages 5yrs, 2 yrs., & 8 months. Sunshine is a giving and sharing soul, I started this non-profit to continue her legacy. Faced with the situation of therapy for my children, grandchildren, and myself, it became clear that this is very important.*

*An estimating 3.5% of children under age 18 have lost a parent. Grief is an area that is not always obvious so it is often over looked. When a child suffers from an illness it is obvious that treatment by a professional is needed. When a child suffers from loss/grief it may not be an area that is treated by professionals. This happens for various reasons, one being funds. That is where we are trying to help families*

*We are currently donating to three groups that deal with grief and children. Sunshine's Angels also budgets funds for private therapy. We have a group of therapist that offer their services at a discounted rate for such therapy. Please visit our web-site for more information*

*With your support and help we can provide more funding directly to those who need it. Please consider supporting Sunshine's Angels to help our future, our children.*

*Thank You,*
